## Attendance

## Behaviour

## Attainment

## KEEPING EVERYONE IN THE PICTURE—24/7

### SCHOOLS

Reduce the administrative burden of engaging with parents, and be confident they are receiving key information about their children and the notifications you send them

### TEACHERS

Send information about homework, behaviour, etc., to students through their preferred means of communication – their smartphone

### STUDENTS

Enable proactive and transparent communication with students about their behaviour points and homework tasks, even if they missed the lesson. Detention reminders are coming soon

### PARENTS

Ensure that, wherever they are, parents are always up-to-date with the latest information in GO 4 Schools and receive timely absence notifications. (Requires Online Parental Access Module)

GO 4 Schools is a powerful, joined-up, easy-to-use, online system that allows your staff, students and parents to access the information they need – 24/7 – to work together to improve student outcomes.

The GO 4 Schools Mobile App simplifies and encourages the flow of information between school and home from one convenient place. Communicating with parents and ensuring students are up-to-date has never been easier or more reliable.

Linking directly to the information in your GO 4 Schools subscription, the app is always sharing the latest information. Attainment and progress grades, attendance figures, timetable, behaviour points and homework activities automatically appear. Push notifications reinforce homework activities and highlight late session attendance marks. Access to progress reports and detentions information is coming soon.

Absence notifications prompt parents to contact school to ensure absence codes are accurate and any concerns can be discussed. Parents with multiple children at your school save time as the app provides access to each child's information. Dual-registered and guest students also have their information in one convenient place.

## Reach more parents and students

### Easily reach parents from all families

Smartphones continue to be the most widely owned device and the most popular and important device for all socio-economic groups to access the internet.

A statistic that's especially growing for disadvantaged families whilst the importance of laptops and desktops to these groups falls. The smartphone dominance also impacts on the use of mobile apps with adults opening their favourite apps on average 13 times every day\*.

The new GO 4 Schools app enables you to reach even more parents by engaging with them in a way that not only suits them but removes the headache when they switch contracts and phone numbers.

## 4 SCHOOLS

### ADD-ON MODULES

#### MARKBOOKS

Collect detailed assessment data backed up with formative assessment — not just summative grades — to support student progress and interventions

#### ATTENDANCE

Quickly analyse and/or record attendance online, simplifying your staff's day

#### FULL PROGRESS REPORTS

Great-looking progress reports, efficiently produced and publishable online

#### HOMEWORK

Support independent study for all students with core and extension homework

#### SEATING PLANS

Create seating plans for groups with key school data and individualised teachers views

#### MOBILE APP

Instantly communicate with parents and students and give them access to assessment, behaviour and homework information and progress reports (coming soon), via their smartphone

#### ONLINE PARENT PORTAL

Access to assessment, attendance, behaviour and homework information, plus progress reports, via a browser

## Key module benefits

- **Communicate instantly.** With live updates, there is no delay in communicating with parents or students. They can access the information they need when they need it, and be alerted to homework tasks or lateness through push notifications.
- **Encourage two-way communication.** Open up two-way communication with parents using an approach that is convenient to both you and them. Prompt them to contact you when their child is late, or to explain reasons for absence.
- **Share the information parents are asking for.** We work closely with our schools to understand the needs of their parents. The app is developed to share the information they are asking for and designed so they will want to use it, supporting more meaningful and constructive home-school conversations.
- **Support student organisation.** The app displays the student's full timetable, helping them and their parents to be prepared for all lessons. No more excuses about forgotten kit or equipment.
- **Keeping everyone on track.** Curriculum information such as grades, residuals, targets and assessments keep everyone informed and working together throughout the year to provide the best support for students.
- **Ensure reports make it home.** The app includes a quick in-app view for short reports and a function to alert parents and students that a full report has been published so they can instantly access it online. (Coming soon.)
- **Ongoing transparency.** Enabling parents and students to always access behaviour and attendance information — including unauthorised absence and lateness — allows everyone to recognise them and work together to address issues before they become serious.
- **Saving lesson time.** With teachers adding homework assignments and associated resources to the app, they save valuable lesson time setting homework and reduce reprographic spending.
- **Exam results.** Remind students of their achievements and allow them and their parents to access exam results if they are unable to attend on results day. (Coming soon.)
- **Extended home engagement.** Once enabled for your school, the mobile app will be accessible to students with GO 4 Schools user accounts plus any parents set-up to use the parental access module.

## What options are there?

GO 4 Schools is a modular system. You choose the modules you want to start with (see left) and simply add other modules as and when your school is ready. The Core edition of GO 4 Schools provides all of the ease-of-use and statistical analysis benefits of GO 4 Schools, but with other modules switched off, waiting in the wings for when you are ready.

## Core benefits

Whichever modules you choose, you will receive:

- Easy, real-time analysis of performance, attendance and behaviour data by year group, subject, teaching group and focus group.
- The ability to link results from external tests such as CATs and MidYIS to performance, attendance and behaviour data, ensuring the best return from them and giving your staff a 360° view of each student.
- The ability to define your own focus groups for analysis, planning and monitoring interventions.
- Automatic, nightly updates of class lists and key student data such as Pupil Premium from your MIS to GO 4 Schools.
- The ability to capture snapshots of data to allow you to compare “then” and “now” and to track progress over time.
- Automatic software updates to all of the modules you are using.
- The ability to set up non-timetabled curriculum areas to give value to extra qualifications e.g. twilight courses and first language exams.
- Access for all staff and students, online, 24/7, with single-sign-on for Windows networks, giving your staff and students one-click access to the information they need.
- Support KS1-KS3 assessment with school-defined grading and residual schemes.

## How do we get started?

Please call us!

We'd love to come and talk to your team about how GO 4 Schools can help you improve student outcomes.

Visit [www.go4schools.com](http://www.go4schools.com) or call 01223 967556 (option 1) for more information
